Tomorrow's shower, today...

Introducing the latest and most technologically advanced addition to the Tissino Showering Collections, the Intelligente Series is a revolution in digital showering.

Intelligente offers a unique showering experience that will ensure your project is futureproof.

The system harnesses the latest technology, allowing the owner to monitor and control water usage, run system health and diagnostics checks, all from the comfort of an android enabled phone, tablet or PC via the SmartGrid reporting platform.

Intelligente Series Features

Ecological Showering	large multiple users can make significant water and energy savings
Fast Installation	easy to install and set-up, plug + play concept for professional installation
5 Year Guarantee	the system carries a 5 year guarantee for complete peace of mind
Remote Access	access, monitor, adjust, control and care for the system from anywhere in the world
Widely Accredited	quality as standard, the system is approved, tried and tested
Minimalist Styling	beauty with brains, Intelligente is designed with a clean, contemporary aesthetic
Flexible Design	controls can be positioned anywhere for convenience - by the door, in the next room etc
Futureproof	harnessing the very latest technology with regular software updates, ensuring the system is always up to date.
Commercial Appeal	represents a significant ROI for the hotel / leisure / residential and health markets

Intelligente System Overview

Intelligente App

Uses the very latest SmartGrid technology to monitor and control flow rates, pressure and temperature, as well as maintenance and health checks.

Intelligente E-valve

Incorporating high quality Flühs components, the E-valve makes 100 checks per second, ensuring highly accurate reporting and a 100% stable showering experience.

Intelligente Control Interface

The Control Interface is the only visible part of the system and is easy to use and looks stunning with clear LED displays.

Intelligente Showering

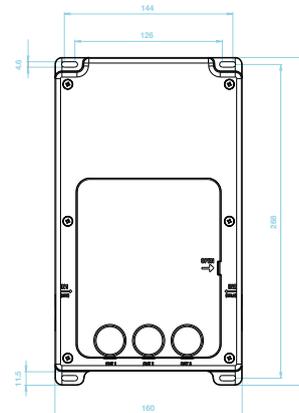

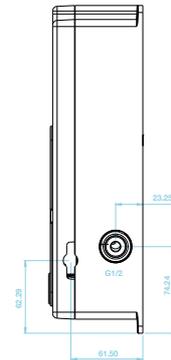

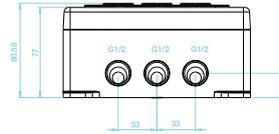

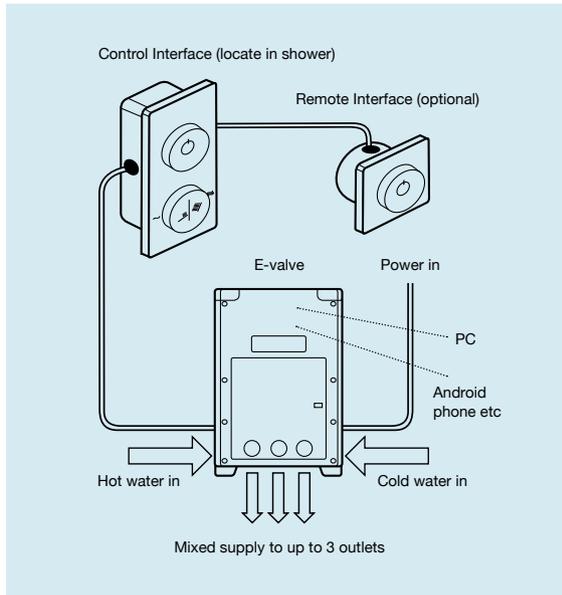

Intelligente is compatible with all conventional brassware ranges and works well with the Mario Series from TISSINO.

Intelligente Series

Intelligente E-valve

The E-valve is a state-of-the-art digital water valve, manufactured in Germany by Flühs, using the highest quality components. The E-valve represents a major breakthrough in water ecology and usage efficiency, constantly regulating and controlling the water flow to the shower unit.

Unique software ensures the system is constantly up to date as developments continue.

TIN-202	White

1 dial control unit with
LED backlight

Available in Black or White

The Remote Interface allows
maximum control and convenience.
It can be located by the bathroom
door, in the next room, or anywhere
else in the building.

Intelligente Series

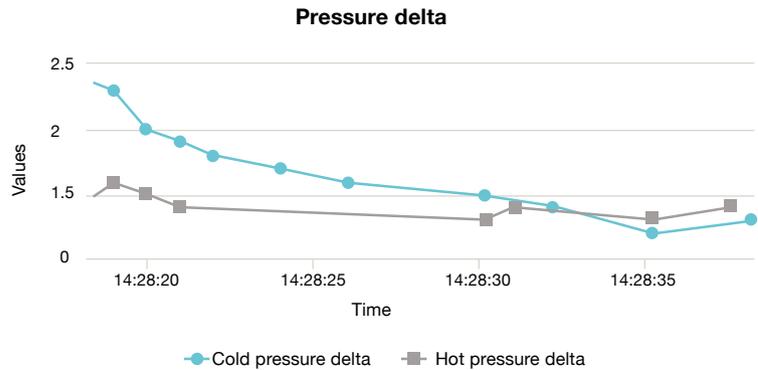

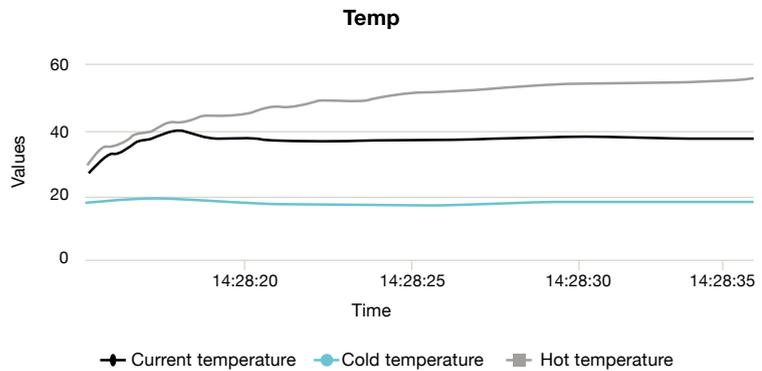

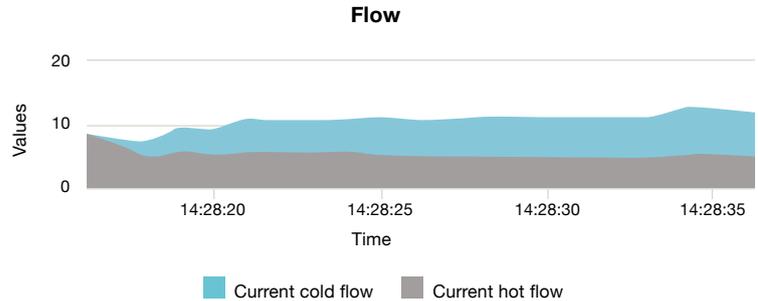

Reporting

The E-valve represents a significant breakthrough in water saving technology as well as offering enhanced experience for the user.

With increasing environmental pressures around the world, it has never been more important to use resources responsibly. The E-valve checks the flow rates, pressure and temperature every 1/100th of a second providing highly accurate reports that can be accessed for monitoring and adjusting via the unique SmartGrid platform.

The E-valve will also detect irregularities and changes in pressure and temperature that may be the result of external influences and will adjust accordingly providing the user with a highly stable shower, whatever those influences.

Potential problems can also be detected early, from elsewhere in the hot water system, and the SmartGrid platform can be set up to deliver alerts to relevant inboxes to get the system checked. Maintenance and diagnostics can be performed without dismantling the system.

Tissino and the art of fine bathrooms

Recognised as a global style icon and responsible for some of the greatest design achievements in the world, The White Book is inspired by our passion for Italian design and flair.

At Tissino, our attention to detail is matched only by our passion for the creative process. Taking inspiration from the Italian love of water and bathing, our team of designers have created a stunning range of pieces to enhance any bathroom.

From classic sculptural, to iconic statement pieces, our commitment and enthusiasm for craft and finish is evident in every single product we create.

All Tissino products carry our quality seal, achieving the highest possible standards in product testing and finish

YEAR GUARANTEE

Underlining the Tissino commitment to manufacturing quality and performance, the Intelligente system carries a 5 year guarantee

Mario Series

Showering Brassware

Mario shower valve bodies are moulded from a single piece of solid brass for an enhanced experience and added peace of mind. This comprehensive range can be built into a huge combination of showering systems and experiences.

State of the art design and technology, top quality raw materials and meticulous attention to detail ensures this range can be specified and installed with confidence. Each unit is factory water tested and the range embraces everything from a simple over-bath shower to sophisticated drenching rain showers to relaxing hydrotherapy through body jets.

Armano Series

Showering

Cutting edge design, advanced functionality and unique versatility combine to provide enormous scope that will empower you to optimise any space for a luxury enclosure or walk-in shower.

This innovative range of 8mm Brillo Vetro glass panels, solid brass support system and an extensive range of low profile shower trays can be used to create any showering space imaginable. From a simple, single panel walk-in to walk-through designs and enclosures of many sizes you can maximise any space with a wide range of glass panel options and adjustable support components.

Ordering Information

Delivery / recapito

Standard delivery to UK Mainland is free of charge and there is no minimum carriage paid order value. This includes site deliveries.

Orders with a specified delivery time and deliveries to a non-UK Mainland address may be subject to a surcharge.

To assist with the smooth running of your project we are happy to discuss scheduled deliveries, split deliveries and call off orders etc.

To discuss delivery options **please contact our sales team on 0845 582 8000**

Details of our returns policy are also available on request, **please email our team clientcare@tissino.co.uk**

Prices & Orders / prezzi & ordini

All values in this brochure are trade prices and are exclusive of VAT. Values shown are GB Sterling.

To qualify for our trade pricing structure, all orders must be accompanied by a project name and a contact name directly related to the project.

A copy of the drawing is also preferred as we can identify and avoid potential difficulties that may be costly to rectify later.

We aim to make ordering a simple, pleasant experience and our trained staff are on hand to assist in any capacity that may be required, **please contact our sales team on 0845 582 8000**

Resources / risorse

Please speak to our sales team to arrange demonstrations, technical drawings, full product specification sheets, product certifications etc. Plenty of resource material is available to you.

Bathroom Interior Design Service

We are proud to be able to offer a complete washroom design service for any project using professional, fully qualified interior design staff.

For further information **please email our team sales@tissino.co.uk**

To arrange a free interior design consultation **please email our team interiordesign@tissino.co.uk**
